**MICHIGAN SCIENCE CENTER INTRODUCES NEW LIVE
INTERACTIVE PLANETARIUM SHOW FOR ALL AGES**

Take a tour through Our Place in a Galaxy Far, Far Away beginning August 7

What: On August 7, the Michigan Science Center (MiSci) will introduce a new planetarium show, *Our Place in a Galaxy Far, Far Away*. This 45-minute live show features an exciting tour of our place in the Universe and compare our solar system and galaxy to those far, far way. Guests will learn the real meaning of a parsec and discover what the asteroid belt really looks like. Members of the media are invited to preview the show on August 3 at 10:30 a.m.

When: **General public:** Tuesdays – Saturdays at noon and 4 p.m. and Sundays at 4 p.m. beginning August 7.
Media: August 3 at 10:30 a.m. RSVP to Shannon.Mackie@Mi-Sci.org by August 1.

Where: Michigan Science Center
5020 John R St
Detroit, MI 48202

About the Michigan Science Center

The Michigan Science Center inspires nearly 300,000 curious minds of all ages every year through STEM (science, technology, engineering, and math) discovery, innovation and interactive education in Detroit and across the state of Michigan. As the STEM hub of the state, we focus on developing and introducing expanded education programs, exhibits, and initiatives that enable us to empower and enrich all children and all communities with STEM. Through our Traveling Science Program and distance learning initiative, we are expanding beyond our Detroit-based facility, with a goal of reaching all 83 counties of Michigan. With Toyota's 4D Engineering Theater, live stage shows, a Planetarium, lab activities, 250+ hands-on exhibits, and more, there are dozens of ways to customize your MiSci visit. The Michigan Science Center is a 501(c)(3) nonprofit organization and does not receive support from the city of Detroit or the state of Michigan. For more information, please call 313.577.8400 or visit the website, Mi-Sci.org.
